Gravitational waves and spherical detectors

Michele Maggiore
Geneva University

Abstract. I will give an overview of the motivations and of the present status of the search for gravitational waves. I will then discuss a new project in which our Geneva group is involved, the development of an advanced spherical resonant-mass detector.

Additional Information

The seminars are given in the ISDC "Pavillon" building
Address: INTEGRAL Science Data Centre, ch. d'Écogia 16, CH-1290 Versoix
